

RBS SHUTTERS

RELIABILITY BACK-UP SERVICE

RBS19

A dry freight shutter from Ross & Bonnyman specifically designed for multi-drop operations, constructed with components that will endure the toughest environments.

The tongue and groove joint between the panels, together with the internally-fixed centre hinges, compliment your livery with a much smoother exterior finish.

Standard Features

- Neoprene top and bottom co-extruded seals
- Primed exterior face to panels
- Nylon hinges and roller holders
- Maximum security lock

Customer Options

- Continuous hinge with finger protection
- White laminated finish to both sides of panel
- Painted exterior finish
- Recessed lock available
